Chloe

Hello Everyone,

I just wanted to thank you for taking good care of me while I was at your shelter. I was at the Veterinarians' today and my check-up was good and my incision has healed up real well. She said I was very healthy. I am doing real well at my new home. I have some new toys and my own little crate to sleep in at night. I have two new big brothers. They are getting use to me being around. We even play together now. My new Daddy thought my hair was a little long, so he gave me a trim. I am attaching some pictures so you can see how cute I am!!
