

Hello from Laila

Laila (who was originally named Kisses) is living life and loving every minute of it! She was adopted on Dec. 19th from the Humane Society and has adjusted well to her new living environment in Boerne. Laila loves running around on nice sunny days chasing leaves and her ball. She is currently enrolled in puppy classes with her human mommy and has picked up quickly on commands. She quickly became a favorite among her class. Laila is very vocal and grunts when she is very sleepy or something does not go her way. She snores loudly in her sleep after a day of hard play. Her funniest characteristic is trying to move her when she is asleep and she grunts almost like a human child who does not want to be bothered.

Adopting Laila has been a blessing!
