## ***Ready for Hurricane Ike!!*** **Humane Society/SPCA of Bexar County is preparing for Animals from the Gulf Coast**

(San Antonio, TX) – As Hurricane Ike approaches, the Humane Society/SPCA of Bexar County staff and volunteers are preparing for over a hundred cats and dogs coming from the Gulf Coast of Texas. This morning Humane Society staff members drove to Corpus Christi to pick up and transfer animals back to the San Antonio shelter. In addition, the Animal Control in Corpus Christi will be transferring over 35 animals to the Humane Society SPCA tonight.

The floors of the Humane Society Education and Receiving Rooms are covered with wire crates. Bedding has been placed and water and food bowls are awaiting the animals to come into their new temporary home. Animals received from Corpus Christi will have time to have a short rest before being put up for adoption at the Humane Society on Thursday at 12noon. The Hurricane Special is a \$25 adoption fee for all shelter animals evacuated from the coast.
