LETTER FROM THE DIRECTOR NANCY F. MAY

Dear Friends,

In the last newsletter, I was writing to you as the Interim Executive Director; this time, I am happily writing to you as the permanent Executive Director of the San Antonio Humane Society. Several months ago, retirement seemed like a logical step for me, but today I must admit there is no place I'd rather be than here with the wonderful animals, staff, volunteers, and friends of the San Antonio Humane Society.

In addition to being our Summer 2012 Newsletter, you'll also find our 2011 Annual Report within these pages. In 2011, we received a great audit and I am pleased to announce that our yearly adoption numbers increased to more than 5,500 in 2011, compared to 4,900 in 2010. In 2011, we continued to grow as a successful organization and a positive influence in our community. We have continued our partnership with the City and every month we watch the live release rate climb for our city's once homeless pets. I truly feel a sense of pride as I see the results of our donors' generosity, our staff's dedication, and our volunteers' compassion change our city. What once seemed like a dream, seeing San Antonio become a no-kill city, has now become a real possibility.

If you haven't visited our shelter recently, I encourage you to stop by to meet our great dogs and cats! I realize most people don't picture an animal shelter as being a welcoming place, but we have a beautiful facility with well-cared-for, adoptable animals. We love sharing our home away from home and our soon-to-be pets with our community!

As a final thought, I would like to remind you that we are always looking for volunteers and foster families who share our passion for animal welfare. When more people open their hearts, we can save more lives. Volunteers and fosters make the difference between having to turn away an animal when our facility is full to taking in every animal that needs our help.

As always, thank you for your continued support and dedication to the well-being of our animals. By contributing locally to the San Antonio Humane Society, you are helping us to connect friends for life.

Yours sincerely,
Nancy F. May

JUNE 30, 2012 *is adopt a* SHELTER CAT/LITTLE CAT DAY!

In honor of June being adopt a shelter cat month, the San Antonio Humane Society is having a one day only adoption special for our cats and little cats. On June 30, cats (4 months+) will have their adoption fee waived and little cats (under 4 months) will have an adoption fee of \$15. Don't miss your chance to take home a cat or little cat companion and welcome a new friend into your family!

CATCHING UP WITH DR. BRIDGEMAN

As adopt a shelter cat month usually brings more cats into loving homes, so does it bring more questions about socializing cats and how to make sure they are happy and healthy in their new environments. To answer a few questions about cat behavior and how to help you and your new cat cope with change, we have our SAHS Shelter Medicine Veterinarian and in-house animal expert, Dr. Courtney Bridgeman.

How do you add a new feline companion into a home with other cats?

1. Keep your new kitty behind closed doors; this allows them to sniff each other's scents without being aggressive to each other.
2. After a week, open the door, but add a barrier such as a baby gate or screen. Feed them progressively closer to the barrier so they become accustomed to being in each other's presence.
3. After a few weeks with no issues, remove the barrier and monitor interaction. This could take up to six months, be patient!

How do you add a new feline companion into a home with a dog?

1. Place the kitty in a room alone behind closed doors and provide comfortable living accommodations in this space.
2. Give the kitty and dog(s) several days to get accustomed to each other's smell and the dog ignores the door.
3. Use a barrier, like a baby gate, where the animals can see and smell each other until the dog is ignoring the cat. During this time, do not leave your pets unattended and be sure to safely separate them when you are not home.
4. Once your cat is comfortable, leash your dog and allow the kitty to approach and look around.
5. When both animals are comfortable, remove the leash and monitor interaction.

How do you add a new feline companion into a home with children?

1. Teach children "soft touch" and not to pick up their new kitty.
2. Let the child feed the kitty by giving them the proper amount of food to place in the bowl.
3. Give the child a toy with which to play with the kitty, like a feather dangle, bell ball, or light laser pen and monitor interaction.

In short, cats are amazing, complex creatures, well worth the trouble of taking introductions slowly. A rushed introduction could lead to a family that will never settle; be patient to make a lasting friendship.

SUCCESS STORIES

Today has been SO wonderful with little Rhyder! Alex and I could not be happier with him and our other kitty, Pixie who talks and chitters at him all the time- so sweet! We feel they are going to be fast friends! We are so excited to see how he grows with us, but so far it has been Purrfect! Thank You to all the Humane Society staff for helping me find my new "son"!

XOXOXO Jennifer!

We adopted Suds in March 2011. He was the 'older' dog with the droopy eye and grey beard. Yesterday we celebrated one year with him. There is never a day of regret although if we didn't adopt him we would certainly regret. He is the most loyal and precious animal you will ever find. We recently moved into a house with a bigger yard, and he absolutely loves it. He does border patrol and then settles down to rest in the grass with lots of fresh air and space, no leash, no time limit, no barking neighbors in the 'pens' next door. He is referred to as a 'big stuffed animal'. We hope to spend many more years with our fantastic Suds!

Sally & Tiffany

Liz Claiborne & Ralph Lauren, two of our "In Style" cats, went home May 10, 2012 with their new family! Their dad put each cat in their own room to give them time to adjust to their new home. It wasn't long before he turned around to find that the two cats had mysteriously found their way onto the couch, cuddled up close together. Looks like they found comfort in their new home by finding comfort in each other. How lucky to find a new family and a new feline best friend, all in one day! Thanks Jesus & Robin for sharing with us!

We moved to San Antonio from Chicago in July, and were eager to adopt another kitten for our new home. We went into the SA Humane Society thinking of giving our 2 year old cat, Jane, a friend. Little did we know, that the moment we saw "Woody"(now Elwood), our hearts melted and we knew we were gaining not only a friend for Jane, but a family member... Elwood is such an awesome addition to our family, and we cannot thank the SA Humane Society enough for giving us an opportunity to bring home a new family member that brings such joy and love into our lives.
