New Medical Building under Construction at the San Antonio Humane Society

SA, TX (October 9, 2019) - The San Antonio Humane Society (SAHS) has begun construction of a state-of-the-art medical building at its location on Fredericksburg Rd. that is estimated to provide services for 20,000 needy pets in our community.

SAHS President/CEO, Nancy F. May, emphasized the significance of this construction project to a packed room during the SAHS's annual Friends for Life Luncheon Wednesday afternoon:

"This expansion will increase our impact on the community's injured and homeless pet population and be an essential resource for responsible pet owners in search of low-cost services."

The Leeu Naylor Medical Building will include surgical, orthopedic, and radiology suites, a rehabilitation room, and a medical clinic. In addition to the medical building expansion, the \$10 million Picture the PAWsibilities Capital Campaign also includes renovations to the SAHS Education Building and Cat Pavilion.

The SAHS has so far reached over 80 percent of its \$10 million goal but is asking for the public's help to raise the remaining funds needed for completion:

"Although we're currently limited by a lack of space and resources," says Chief of Community Engagement, Traci B. Gomez, "thanks to contributions by many generous supporters and organizations in our city, we are on our way to saving the lives of thousands more dogs and cats."

Those interested in donating to the campaign, including those interested in learning more about naming opportunities at all levels, should visit SAhumane.org/Capital or email Traci B. Gomez, Chief of Community Engagement, at tbgomez@SAhumane.org.

About The San Antonio Humane Society

The San Antonio Humane Society (SAHS) is a nonprofit, no-kill organization that has served Bexar County and its surrounding areas since 1952. As a local nonprofit, we are not affiliated with the Humane Society of the United States (HSUS). We do not receive funding from the federal government, the HSUS, or the American Society for the Prevention of Cruelty to Animals (ASPCA). Every year, the SAHS shelters, medically treats, and rehabilitates thousands of animals. Many are injured, abused, surrendered by their owners, or found as strays. All pets remain in our care until adopted. Our mission is to protect and improve the lives of dogs and cats by providing shelter, care, adoption, rescue, spay and neuter programs, and community education. SAhumane.org
