

Angie (aka Fumiko)

Just wanted to send a big thank you to the SA Humane Society for connecting me to one of the greatest dogs in the world, Fumiko, or now, Angie. I named her after my favorite Rolling Stones song. I adopted Angie on January 23, 2009 after I spotted her adorable puppy face on your website. At first, I thought I wanted a larger breed dog, and with her German Shepherd markings, I was convinced she would be just that! However, after realizing she was the world's best cuddler and often enjoys laying right on top of me, I was thankful she only grew to be about 40 pounds! She is one of the most athletic dogs I've ever seen, she can jump about 6 feet for her favorite squeaky tennis ball. She has mastered the cannon ball into the pool and enjoys running and playing with her sisters (A bull dog and a rescued terrier mix). Angie is best known for showing her love through her persistent kisses, you know she loves you when you are covered in slobbery dog kisses. Angie is the best dog I could have ever asked for, and we are excited for all the fun adventures we have ahead!

Thanks again SAHS!

- Andy
