

Gertie aka (Sky)

I adopted Gertie (Sky) in August 2010. She was very quiet and a bit shy. Not so much now. She is a nice addition to my group. She is very attached to my other shelter adopted dog Heidi. She is very active and playful, and appears to enjoy her picture being taken. She is not a big barker, but on occasion will chime in with the others when she deems it necessary. She has put on some much needed weight. I have her groomed about every six weeks and she appears to like being fixed up. I recently took her to a doggie manners class and she actually did very well. She now knows how to sit and is learning to be more patient when it comes to treat time. Thanks to all of you at the Humane Society for doing a good job with our furry friends.

God Bless to all the many homeless animals that need a forever home.
