

Java

When we lost our big dog of 15 years in 2006, we thought we would never want to get another one. But in July of 2008, we visited the Humane Society and saw a pup who we were immediately attracted to. First thing was that her name was Beth, which is my wife's name. She had the best personality of any dog I had ever seen. We adopted her and took her home. Now after three years with us, Java, as we named her is 95 pounds of love and affection. She is the easiest going and smartest dog I have ever had. We look forward to many years of having her as part of our family.

Thanks to everyone there. Mike & Beth
