

Lola (and Maggie)

I just wanted to send a short note to let ya'll know that Lola is doing great and has been the best addition to our life. We adopted her from the Humane Society on 8/15/09, I couldn't imagine life without her. Well on 5/10/10 we got another addition by chance/fate, we named Maggie Mae. She was on her way to the local pound when I got a phone call to please come look at her. So I went with the intention of taking her and trying to find her a home. When I brought her home Lola and her took to each other like long lost souls, so needless to say I kept her and she has also been a blessing in disguise. They love each other so much and just play all the time and chase each other, when I take them for walks down the country road they jet off like lightning to play chase. They LOVE the beach! I just wanted to let y'all know that Lola is in a loving home and will be cherished her whole life. Thank y'all again for all you do for these little ones! I enclosed a couple of pictures of them, Lola is my beautiful poodle girl and Maggie is I think a yorkie/poo, beautiful girl. Who says girls can't get along!

Sincerely,
Casandra
