Pepe

Hello. It has been 5 days since we have adopted our Pepe from the San Antonio Humane Society. Although there were many little puppies to choose from. Pepe was the first to play with, following our intro with the dog we were asked to bring in our Pit-bull Xena for the dog introduction. And it was heartwarming to see our dog play with Pepe and get along so well together we couldn't help ourselves but to bring Pepe home with us. Over these past 5 days alone Pepe has become more active and is extremely sweet to our Special Needs little girl "Gabi". We are trying to prove to everyone that Pit-bulls have a heart of a care taker. And has been a real success with the 2 dogs getting along with each other and our daughter. Pepe being as small as he is brings many smiles and heartwarming memories to us growing up with our family. Please we ask everyone even though Pit-bulls may have a bad reputation in many states; it's never too late turn around the sad abusive stories into success stories like the one we have created over the few past days. And we would like to thank the San Antonio Humane Society for helping finding the Pit-bulls homes as well as all the other animals their at the shelter. **Keep the smiles coming!!!**
