

## Suds

“My name is SUDS and I have been with my new family for almost 3 weeks now and have never been happier. I have put on 3 pounds and am sometimes referred to as "Hoover"... coz I eat anything and everything. I love lying outside on the grass and being able to roll around and have fun. I sleep next to my owner’s bed where I know I am safe and loved. I have really good manners and the vet says I am in great health, although I need to keep eating to reach my goal weight. (Which I have no problem with!) I am thankful that there are people out there who are willing to give us 'senior' dogs a chance. We are just as special and cute as all the young ones.”
