

Abigail

Hello!

We adopted Abigail (formerly known as Pine at the Humane Society) and she stole our hearts immediately. We brought her home Nov. 30, she was two months old. She's growing so fast and is extremely playful. Her vet says she's in great health. We are training her to obey commands. She's so smart and catches on very quickly. She learned to "sit" and "stay" the second night within 15 minutes! We're still working on getting the potty training down but she's getting there. It's been great watching her learn something new every day and I'm so happy to have her be a part of our little family.
