

Charlie

I'd been looking around Round Rock and Austin, and online in San Antonio for about two weeks before I found our new little guy on Petango.com here at the San Antonio Humane Society. When I decided to drive down to visit my family and went to meet him, I was very impressed with the facility. It was very clean and had friendly people around to help. My kids and I were thrilled to finally meet the little guy I'd seen online (formerly known as Whipple - my kids renamed him Charlie). He was already apparently house trained and just wants to be with his people. The ultimate lapdog and already being spoiled rotten- I just can't believe after being a stray pick-up that no one came looking for him. He is just the PERFECT pet for our family and we are so glad you all saved him! Now we have three rescue dogs in our house and they come in small, medium, and large. :) We move to North Carolina in a couple of months, but the San Antonio Humane Society will continue to have our support.

I'm attaching my scrapbooking layout with some pictures of Charlie and his new family for your success stories page.

And the girl who helped us that day - I don't know her name. If you know who she is, please tell her thanks - she was right, he's a GREAT lap dog!

Thanks for all you do for the animals! :)

Stephanie
