

## Pixie

I adopted Pixie (formerly "Olive") around the 4th of July, 2012. She's a playful little pitbull mix and keeps our 4-year old pitbull, Buddy, very busy. She can finally keep up with him running in the backyard and sometimes even sneaks up behind him. They love to play tug-of-war and chase each other around the house. Pixie also tries to say hello to our old grouchy cat, but the old kitty never lets her get too close.

From the moment I saw her lounging around at the SA Human Society, I knew she'd be part of the family. She tries to ninja her way into your lap and wakes me up everyone morning with a big sloppy kiss. She's not exactly a lap-dog at 60 pounds, but she's a great cuddler. Sometimes I have to wake up her up from bad dreams or remind her that shoes are not chew-toys. She's growing up so fast and has been a wonderful pup- I'm so happy to have her!

Thank you for all your hard work at the SA Humane Society!
