

Elwood

We moved to San Antonio from Chicago in July, and were eager to adopt another kitten for our new home. We went into the Humane Society thinking of giving our 2 year old cat, Jane, a friend. Little did we know, that the moment we saw "Woody", our hearts melted and we knew we were gaining not only a friend for Jane, but a family member. There he sat, with his eyes so big and full of love, sitting in a corner, staring down. We couldn't even walk any further to look at any other kittens, he was the one. We knew it instantly. We got him out to play with him, and he just cuddled into us as each of us held him. He sure was a lover, and we were in love with him. We decided to change his name from "Woody" to "Elwood" to incorporate his previous name and add a little bit of our love for the Blues Brothers and Chicago. He was introduced to Jane, and they bonded within a few days. He has such a loving, "old-soul" personality and he seriously melts our hearts everytime we look at him. Jane and Elwood are now best friends, they play together all the time and sleep together every chance they get. He is such an awesome addition to our family, and cannot thank the humane society enough for giving us an opportunity to bring home a new family member that brings such joy and love into our lives. We will definitely come back and adopt again when the time is right. As for now, we will enjoy the kisses and cheek rubs Elwood gives us every morning after he wakes up.

Proud parents, Liz and Andrew
