

Grounder

We rescued Grounder a little more than a year ago at the San Antonio Humane Society, and he is the best dog we have ever had. When we first seen him he had fleas everywhere on him and had some problems with worms. As we tried to play with him at the Humane Society he was so depressed and sad that he would just sit there. Then we knew he was the puppy we wanted to give a good home to. As soon as we first let him down into our house he ran around shaking his tail, playing with all his new toys and that was the best feeling in the world. Now he's almost 2 and this was his second Christmas with us, he has a stocking we fill with dog treats and goodies! He makes everyday brighter for us and sleeps right in the middle of my husband and I every night. I love this dog like my own son and I just wan't to say thank you San Antonio Humane Society for everything you do!

Love,
The Braunstons
