

Pinky Mae

Hello! My name is Pinky Mae. I'm a 3 year old Australian cattle dog mix who WON the lottery!!! I now have a permanent place to call home, yummy daily meals, new furry friends and loving parents who truly care about me.

What a journey it has been. I've certainly experienced many things in my life time - some good and some not so good - but finally after 2 years and with the help of my friends at the San Antonio Human Society - my wish has come true - I was adopted!!!

It has been 7 months since my adoption and I'm 10 pounds healthier, look forward to my daily walks and I've become quite the deer huntress not to brag but I've also spotted a fair share of cotton tail bunnies. I get so excited and don't tell my dad this but you really should see him run, leash in his hand and all, trying to keep up with me when I chase after rabbits!! :-) It's so hilarious!

I want to thank my friends at the San Antonio Human Society who took very good care of me until I could find a permanent home. I'm truly the luckiest girl in the world!

Here's a message from my parents..."please rest assure that the wild life (deer / rabbits) mentioned in this story were not harmed - adopt an older dog , they'll truly make a GREAT addition to your family!"

Have a happy tail day,

Pinky Mae
