

Scrambles

Hi, I really just wanted to send y'all a thank you for letting us adopt the best cat every.

My fiancé and I adopted Scrambles (originally names January) on July 14, 2010. She was around 1 year and 8 months when we got her. She had an intestinal problem but the Vets at the VCA of Leon Springs helped fix her up. It is now two years since we adopted Scrambles and I cannot imagine our family without her. Every morning she jumps on the bed around 8 am and brushes our noses with her face so we will wake up and spend time with her. She loves to talk and if you say something to her, she looks at you and responds back. She loves following us around from room to room in the house and trying to guess where we are heading so she can beat us there. At dinner she likes to sit in a chair in the corner of the room and either sleep or watch us eat.

One of her favorite activities is watching the squirrels run around outside through the front window. I am so glad we were lucky enough to find her. Thank you for letting her be a part of our lives.

(Attached are three pictures of her. The first she is wanting to join us at the dinner table, the second she is in a box we never got to unpack when we moved to Dallas because she claimed it as hers. We put a kitty bed in the top so it was softer for her. The last is a picture of her angry at me because I went out. She is on top of my purse because she doesn't want me to leave. She also likes to roll on top of shoes when my fiancé and I try to go out together so we can't put them on without first giving her some attention.)

Love, Hilary, Justin, and Scrambles
