

## Snickers

My wife and I adopted a 7 year old cat named Snickers. She is a beautiful animal, very gentle, very social and she made herself at home almost right away. She snuggles with us every morning as we have our morning coffee in bed then curls up and goes to sleep. We call her "Guard Cat" because she will take her place atop the love seat each evening when we go to bed where she will stay until we get up in the morning. Attached is a photo of a very happy and content "Snickers".
