

Bailey

Hello,

We adopted a dog under the name Lois from the San Antonio Humane Society, and she has become a very special member of our family! We changed her name to Bailey, and she has come to love her new home with us. Bailey is about 3 years old, and was heartworm positive when we adopted her. After hearing all of the possible negative outcomes of having a dog with heartworms and the extreme care and supervision they have to be under, we did hesitate, as we had just endured the loss of our dog a few months prior, with whom we spent 13 wonderful years with. However, we decided that Bailey was the dog for us, and regardless of the outcome of her treatment, we were happy to give her a loving home. Bailey adapted wonderfully to our home, and took the treatment exceptionally well! Aside from a little fatigue after her treatments, there were no indicators of her heartworms or her treatments. We are excited to say that Bailey is now a happy and healthy heartworm-free dog! Despite being 3 years old, she has the playful spirit of a pup! So much so that we adopted her a little friend, Molly, from animal care services to keep her entertained. Bailey loves playing with her squeaky toys and going on walks. We are so glad we made the decision to adopt her, and by the looks of it, she is as well! Bailey has completed our family.

Sincerely, The Rutledge Family
