

Bowie

My husband and I adopted "Hamilton" about a month ago. We were newly married and had a new home with a big back yard and wanted to adopt a pet to add to our family. Growing up my family always adopted pets. I knew the only way for us to add a new pet to our family was to adopt. I went to the SA Humane Society on a whim one day. We absolutely fell in love with him! We adopted him and named him Bowie. He is potty trained, can do some tricks, and does really well with others especially kids. Everyone falls in love with him! He loves to cuddle and go for walks. He loves his back yard and is my husband's constant sidekick. We could not have asked for a better dog.

Thanks again for all that you do!

Amanda
