

Cecelia and Fonzie

I came to the San Antonio Humane Society at the end of March. I had been thinking about adopting a male cat as a companion for my other cat, Cecelia. I went by a few times to see and interact with the cats that were available. Eventually, one cat caught my attention: Fozzie.

He was transferred to the Humane Society by ACS. They must have seen a lot of potential in him because he was interacting very well with his neighbor in the next cubicle. I wanted a cat that seemed to be well socialized. The minute he came into one of the interaction rooms, I could see why he was named Fozzie! He was very playful and wanted lots of attention. So I took him home with me.

At first, Cecelia was not happy to have Fozzie in our home. For the first few days, she hissed and growled at him. But instead of fighting back, he just went on about his business. I knew that I had to change his name because he was as cool as a cucumber. Immediately, I thought of Fonzie from the TV show "Happy Days". So I went ahead and renamed him Fonzie; besides, it's much easier to pronounce.

Now, Cecelia and Fonzie are good friends. They play with each other and run around the house. They'll even groom each other from time to time.

I just want to say thank you for allowing me the privilege of adopting Fonzie from your shelter. He's been a huge blessing in my life!
