

Leah

Hello! I adopted Leah (now pronounced Leia- like Princess Leia, which fits her very well) in spring/summer 2010. She won my heart over when I walked into the puppy room and saw her big brown eyes staring up at me from her metal crate, She just looked SO excited to see me!!! Leah grew up so fast and has been my partner in crime since the day we met. We moved to Houston together and now she is 3 years old. I was told that a family had adopted her before me and had returned her because she was too much to handle. Of course this broke my heart, I wanted to give her the most loving forever-home any dog could have. She is bright and easy to train (BIG snuggler too!). Thank you SA Humane Society for bringing me my best friend!

Anne Marie
