

Lola

Hello, I just want to share with y'all. What a joy our little "Lola" is. We adopted her about 3 weeks ago, and she couldn't be a sweeter, happier little girl. I initially adopted her more for myself than my husband, as we already had 2 male dogs at home (both of which were also rescues), and I wanted a little girl to spoil! Well that backfired, because she immediately attached herself to my husband. Her favorite spot is on his lap...upside down getting belly rubs. She likes everyone, but she LOVES her daddy!! LOL. She gets along great with our other 2 dogs, especially "Ernie" our shih-tzu, they race around the house till they absolutely collapse from exhaustion.

She had a couple of accidents the first week we had her, but after she got used to the daily routine, and learned to use the doggy doors (she's an old pro now), no more accidents!

Thank you again for all you do for the animals. We just love our little Lola!

Regards, Marla Jockers
