

## Misty

About a year and half ago we adopted Misty Mae or y'all knew her as pineapple, she has been a blessing and she is the best dog ever she is super sweet and cuddly and never barks and she the smartest dog I've ever had she learned sit, shake, high five, lie down, and fetch with the first week we had her and she was only 7weeks. We don't even have to use a leash (but we do) she stays by my side and never lets me leave her sight. She absolutely adores our FFA rabbits and love to heard them around the yard and she gets along very well with our other dog and cat. I just wanted to thank y'all for rescuing her she is a major part of my life and she is my best friend.

Mariah
