

Neena Doc

My name is Neena Doc and I was adopted in August of 2011. I moved to New York City a year ago and I am loving it.

We are so happy with our decision to visit SAHS. Since the first day we met Neena Doc we knew she was the member that our small family was missing. She walked slowly toward us, gave us the most precious kiss ever and she never let go, we cuddled forever. Life has not been the same since she came into our family. Neena enjoys morning runs and to stroll in the park, she gets crazy smelling everything around her. People are constantly talking about her sweet personality when we go out for walks. We feel very blessed with her thanx again SAHS!!!

Thank you San Antonio Humane Society
