

# Faith

Thank you so much for the gift of adoption! My family and I adopted Faith on 6/30, and our lives haven't been the same in even a week. Originally, she was adopted as an emotional support animal for anxiety, and at even 10.5 months, she is the perfect dog for this! Her laid back temperament is the perfect balance of calm and fun.

I love that my son has now taken a lead in her house breaking/crate training, giving him ownership and responsibility skills he wouldn't be able to have otherwise.

She is super smart, and picking up commands like a champ.

Thank you for proving us with a new member of the family!

Rebecca
