

Harley

My name is Lisa. Back in April of 2012 my husband, three kids and myself went to see about adding a member to our family. We had originally had another dog that we were interested in getting and while waiting for our chance to meet the dog we were walking around and I spotted some puppies. Harley (Hewy was his original name) gave me a "hug" and I knew he was the one for our family. He is still that same lovable puppy he was.

Sure he likes going for walks, playing in the yard and fetching a ball. However his favorite thing to do is get on our lap, lay in his back, and get attention. The humane society and the foster family were all so nice and was there whenever we had questions or concerns. Thank you for allowing my family to adopt a perfect member to our family!
