

Lizzy and Molly

Hi guys! I just wanted to give you an update on "Christmas". We adopted this beautiful little girl last week, and on Thursday she was given her clean bill of health! She has ingrained herself into our family and hearts. She is beautiful, loving, and a pure joy to us and our other dogs. The kids have renamed her Lizzy, and she is awesome! As you can see in the attached photos she has become inseparable with our female dog Molly. I wanted to thank Jamie our adoption counselor for helping us in adopting "Christmas". I wanted to let Jamie know as well, that she has shown no food aggression, or toy aggression at all. I am not sure if her first adoptive family wasn't the right fit, but she is wonderful. She goes on daily walks, plays with all the neighborhood kids, and is learning to fetch in the yard! Thank you again so much for allowing us the privilege of giving her a permanent home!
