

Maple

I would like to thank you for helping me find my furry daughter a year ago. She was in your shelter from a hoarding situation. Cats are hard to read when they are out of their comforts zone but she couldn't have been a better match for me! She is quirky, energetic and full of so much love! She even has some canine traits which I love. She definitely turned my life around for the better and we have so many years ahead of us

Katie
