

Mojo

I adopted Mojo Stone on Columbus Day weekend in 2012. At the time, I was in pretty serious mourning for my dog who was killed in a tragic accident, and I saw Mojo on a SAHS facebook post shared by a friend looking for a foster for him. He was brought in with two siblings, both of whom had already been adopted, but this poor little fellow had a large spot of ringworm on his tail. I felt a pretty serious tug on my heartstrings, and I called up SAHS and arranged to go through the steps to become his foster.

Six weeks later, he was ringworm free, and we made it official! Here he was then, and here he is now!

Thank you for making our lives happier!

Melinda
