

# Patches

I adopted Patches a few months ago. She was very skittish and nervous when I brought her home, and she took several weeks to adjust. But with lots of patience (and treats!), she finally feels comfortable in her new home. She is very playful. She especially likes to hide under the furniture and grab my feet with her paws when I walk by. She also loves to snuggle up on the bed with me. Patches has turned out to be the perfect kitty friend for me! I know she was a favorite among some of the volunteers at the shelter and I just wanted to send along an update and say thank you for everything you guys do.

Casey
