

Lucas

Lucas Before

Lucas After (at his favorite spot)

Three years ago this month I came into the Humane Society with a friend who was looking for a puppy. I had two elderly beagles and was not looking for a dog. You had a dog named Davey who was sitting in the corner of his cage. He was scared, shy, under weight and had several open sores from tick removal. I felt so bad for this poor dog. I went home without him. I came back the next day and adopted him. Since that time my 15 and 16 year old beagles passed. Davey's name was changed to Lucas and with much love and patience he has become caring, trusting, loving and one of the best dogs I've ever had. I'm so glad I didn't wait for my beagles to be gone. Lucas is a once in a lifetime dog. Thank you for what you do. I have attached a before and after photo. Favorite spot is on the couch.
