

Cheshire

The first picture is Cheshire who we adopted almost 4 years ago from you. And the second picture is Wash playing with his favorite toy. A doll he stole from his tiny humans (my daughters). They make me smile everyday. The third is a picture of all three of my fur babies. The two boys and Zoey the only girl. I got her from PetCo's adoption station. She was howling the whole time we were there and I just had to have her. Glad I did because she fit in perfectly with the boys. Cheshire is a mamas boy all the way. He spends most of his time cuddled up to me. He always knows when I am having a bad day. He gives me extra head butts on those days. Wash is a daddy's boy. He loves to cuddle with my husband while he is sleeping.

Thank you for all the work you do.

Allison
