

Bow

I adopted Bow (formerly Mathew) about a month ago, we had transferred in hours before I adopted him! He has sense learned that dog parks are awesome! Dogs do get toys and bones! And he has his own couch to sleep on since he is still scared of the bed.

But we are working in it!

We went to petco this past weekend to get food for him and his brother, and he decided to pick up a toy and carry it with him so I couldn't say no to him getting the toy! He is such an amazing addition to our family!

Him and his former humane society sister (adopted my cat at SAHS 2 years ago) Millie and Brother Diesel are all happy.
