

# Ellie

You guys said to give you an update on animals when they are happy in their home so here it is. This is Ellie (formerly Honey Ham). She is the sweetest pup and loves every human and animal the same. She whines when she yawns and she whines when she wants scratches she is a wonderful addition to the family and she adores kids. She likes to sleep in some corner of the house but when she wakes up she wants kisses or food! She knows how to sit and lay down and stay and she knows to sit before she is given food! We are working on roll over but no rush she is the sweetest companion and I can't thank you enough.

Shannon
