

Peaches and Ziggy

Hi, SAHS! My boyfriend and I have adopted two furbabies from you in the past year and a half and I thought it was time for an update on them! Our dog, Peaches, who we adopted a year and a half ago (then named Tammie as an 8 week old puppy) is so sweet and loving. She truly does not know her size (at least 100 lbs), she still likes to cuddle in laps! She has graduated from training classes and she's super smart. Our cat, Ziggy, (then named Kingsley as a two year old cat) who we adopted just a few months ago has made me laugh out loud more times than I can count and he gets along fabulously with other kitties. He loves to cuddle and be held, and he has the loudest purr ever! He is truly one of the best cats I've ever had. Thank you so much for all the work you do to save homeless and abandoned animals. We love our pets more than anything. Thank you for a precious gift that could never be replaced!
