

Bandit

Hi, I wanted to update you on Bandit, formally Turbo. We adopted him 6/18/16, and he immediately became an amazing member of the family! We named him Bandit because he stole our hearts right away. He was supposed to only grow to 65-80 lbs, but 97+ lbs later, he is just more to love. He is a cuddle bug, and loves being with his people and meeting new people and dogs. In November we adopted a sister for him and they are inseparable. He gets along great with his human brother and sister too. He can be quite stubborn, but at times, it's too funny and it's hard not to laugh. Thank you for giving us an amazing family member!!!

Sarah
