

Chuck

Hello! My family wanted to send an update on Chuck. We adopted him about 6 weeks ago and he has been such a great fit for our family. We lost our Labrador last October at 13 yrs of age, and as many times as I said no more dogs here we are looking at adoptable pups. I spotted Chuck on the webpage and even went to visit. I left undecided but couldn't get the look on his face out of my head. I gave it a week and told my husband if he was still there I was bringing him home. Lucky for us he was still there with that same look, and there was no turning away this time. He is great with the kids and loves to cuddle and go on walks. He even learned new commands, like shake paw and sit. About 2 weeks we welcomed another pup into the home which we adopted from a friend. The two instantly bonded and they keep each other entertained. We <3 these two fur babies with all our hearts.
