

Bluz

Hi there! We adopted a big orange cat named Bluz a few weeks. We lost our pets in a house fire 5 years ago. Bluz has been such a joyful addition to our family. They said he was a picky eater. He's finally decided that Science Diet is his meal of choice. He loves to cuddle our 4 year old and enjoys belly rubs. We adopted him at 16lbs. He now weighs 20.3lbs!! He's HUGE!

Thank you so much SAHS!
