

Meeko

Hi! I wanted to send an update on “Snow Leopard” now named Meeko! We adopted him at 3 months old in February and he had only been on the floor for adoption for an hour before I came and found him. He’s been doing great and still is a kitten so he’s a bit mischievous, but I wouldn’t have it any other way! He loves his older brother and loves sitting on the window sill and swatting at insects all day. He looks like he might be a Maine Coon but we aren’t too sure. He’s gone from 5 pounds to 12 pounds at 10 months old!
