

# Toby

I saw Toby at your shelter in the “special needs” area. He was being treated for heartworms. I was told a man found him abandoned and brought him in. He was 1 yr old and when I saw him I just fell in love. I adopted him but had to wait to bring him home til his treatments were completed. In the meantime I visited each day. We’ve had great times together! Trips to the dog park, Paws on the Patio event, roadtrips and lots of cuddle time at home. My Toby recently passed away but lived for 19 yrs and I’m so happy I found him that day.

I know he was too. I want to say thank you to that kind man who brought him in to your shelter and to all of you for everything you did for him. You have the most wonderful fur babies that would make such great pets! Toby is just one example of what kindness and care can do. We thank you so much!
