

Willow

"Willow's Home Update!"

We went to the humane society looking for a cat but somehow my husband and I ended up with this little one. This is Willow! When we went to the shelter she had just gotten there and we knew she was the one. We waited four days to get her so she could get spayed and I'm glad we chose her. She was shy when we got her but now she's a playful little puppy. For only being three almost four months she's

a fast learner and very calm for being a puppy! We love her so much and glad she chose us as her forever family. I'm grateful we went to the humane society to get us a new family pet. It was one of the best choices and I will decibel recommend them to anyone looking for a furry friend.

Willow loves to sit outside and enjoy the sun and the wind blowing. She's obsessed with chasing her tail and does it constantly! She whines while playing with her toys because I'm assuming she's so happy! Lol. She's made herself at home and she's a happy little puppy!
