

Blossom

I'd like to thank you so much for this program and everything you guys do. I love the animals they are always the happiest and most loving. I've adopted my pup , Blossom from you guys in November and I couldn't ask for more from her, she is absolutely amazing and I can't get enough of her. When I first got introduced to her she was super shy and corning herself. I knew she was special the moment i saw her online, and I'm so glad i got her. She surely fits her name you guys have given her as she has blossomed into a super outgoing girl and loves everyone. She isn't a shy pup anymore. Blossom is honestly the best and I would love to thank you guys for everything you do as I know blossom had problems with trust and going from shelter to shelter in her past.
