

Margo

Our family adopted Gisele a few days before Christmas. Gisele became Margo in an instant! She is the most lovable dog we've ever had. It was the perfect fit for our family! We wanted a mid size dog who was not a puppy and showed signs of not being hyper. Margo had all the qualities and even more. When we came home, we found out that she was fully trained, potty & commands. She is like a little old lady, she lays around sleeping all the time and even thinks she is a small dog. Margo sits to the throw herself around our neck every time we say "hug". She recently started playing and chasing dog toys... I guess it took her a few days to get used to her new environment. Thank you to your staff for their patience and working with us in finding the perfect pet for our family! I can't imagine how difficult the job can be, but know that your care and love is helping families find the right pet just as it worked for us. We love our Margo. Blessed New Year!
