

Mocha

It's been about 9 months since my friend and I went to the Humane Society to go look for a puppy for me. Time as flown by so fast we're about to celebrate Mocha's first birthday on December the 28th! I remember the day I saw Mocha (or Pony) I knew she was the puppy for my family and I. It was tough at first since it was the first time I've ever owned a puppy, but as time went on she is now an irreplaceable part of our family! In fact she is the most spoiled one out of even us kids in the house! She loves and plays with all the Children who come over, and is showered with love when other's come over; she also gets toys from everyone all the time. Even my mom who never really liked dogs when they touched her, she is now fully and hopelessly in love with Mocha now.

We absolutely love Mocha, and we are so grateful that God brought us the most perfect Dog for our family!
