

Scout with family

We adopted our Scout (FKA Snow White) 2 years ago today. We saw her picture on your Facebook page and fell in love. When we brought her home, she was skinny, heartworm positive, and scared of her own shadow. It took some time, but she came out of her shell and learned to trust us and her new brother and sister. Today, she's a feisty, healthy pup who loves to cuddle, sunbathe, and play. She made our pack complete, and we couldn't be happier that we stumbled upon her picture 2 years ago.

Thank you SAHS!!

Lisa
