

Sophie and Loki

Just wanted to share some happy tails! My boyfriend John and I adopted both our dogs from the San Antonio Humane Society! We got Sophie (formerly Lisa) in September 2017 to help me grieve the loss of my 10 year old service dog, Bella <3 Sophie was scared and shy at first and would wake me up in the middle of the night to lick my face! She was so attached to me, I couldn't walk a foot without her there. We thought getting another dog would help her open up more and in January 2018, we got Loki (formerly Pirate Jack). Loki is so sweet and outgoing! He loves to zoom around the house, especially when he has something he's not supposed to!. Sophie and Loki are the best of friends! Loki protects her and by barking when he thinks there's danger while she runs to hides next to me! They both get into shenanigans together and work as a team. Sophie jumps on the table and will drop leftovers down for Loki and Loki will pull clothes out of the hamper so they can lay on them together :) I love them so much and I'm glad we got a chance to adopt them. They're very spoiled and help me manage my anxiety and depression. Thank yall for everything you do!
