I just wanted to write and say how thankful I am for your service, hard work and for taking such great care of my dog until I found him! We've had him for a month and four days and he's been the delight of our days. He's gained ten lbs, grown in love with us as we have for him. Every day I am seeing more evidence of him feeling 'at home', testing the boundaries and yet his love for us and his desire to please us far outweigh his 'puppyhood'! I must say I was very nervous about getting a rescue dog because of issues that come with that, BUT THIS DOG has none! Just look at that face! He's amazing, smart, obedient and EVERYONE that comes to our home (we are AirBnb hosts) absolutely love him and want to take him home!!! Thank you so very much for all you do!!!
