

WooWoo

I adopted a puppy (Woowoo) from you a few years ago, his mom was a pitbull terrier, he was supposed to be a big dog, over 50 lbs, well at 3 years old he is 40 lbs. we found out his daddy was a little beagle. he is so cute and smart, he can sit, shake, give high5, roll over, stay and speak. you can tell him to go get a toy to play and he will go get one. since we got him, we have adopted 3 more. my dining room is now a puppy room. I'd like to send pictures. how can I do that?
